

# Terrorism and Terror-related attacks

Business/Property Risk and Vulnerability  
Assessment plus bespoke training for staff

Many businesses may have concerns about their potential vulnerability to terrorist incidents, whether physical security of their premises or safety and security of staff and customers. Crisis Management Ltd, a specialist consultancy whose staff have years of experience in policing, security and crisis management, offers a bespoke service providing realistic and practical assistance through assessment, advice and training. Terror-related threats are always changing, but recent trends have included one or more of the following:

- ❖ Person-borne improvised explosive device (IED), commonly referred to as suicide bomber
- ❖ Vehicle as a weapon – a car/van/lorry used without adaptation to cause damage and injury
- ❖ Vehicle borne IED
- ❖ Marauding terrorist – person(s) on foot and armed with knife or gun or other weapon

**Crisis Management Limited will work with you to deliver:**

## Premises Threat and Vulnerability Assessment

Our specialist consultants will survey your premises to identify potential threat and vulnerabilities to the above types of attacks. We will provide a comprehensive report, making recommendations for improvements, bespoke to the client and taking cognisance of budgets and operating requirements. If required, we can also project manage any subsequent work undertaken by the client, based on the recommendations in the report.

## Safety training for staff

Our experienced and specialised trainers will provide bespoke training for staff on what they should do in the event of an attack. We will provide practical and common sense advice and guidance, based on best practice from the UK and USA and taking full cognisance of the latest UK government 'Crowded Places' advice issued by the National Counter terrorism Security Office (NaCTSO). This training is classroom-based, with the use of Power-Point, video and group discussion. Basic training will be a minimum of two hours, but can be adapted based on organisational need.

If the client commissioning Crisis Management Limited for training has also used us for the Threat and Vulnerability Assessment, then the safety training for staff will be designed to take account of the specific layout of the premises in question.

## What type of organisations will benefit from our services?

- ❖ Night-time economy
- ❖ Cinemas and Theatres
- ❖ Stadia and Arenas
- ❖ Health
- ❖ Education
- ❖ Places of Worship
- ❖ Hotels and Restaurants
- ❖ Major Events
- ❖ Visitor Attractions
- ❖ Commercial Centres
- ❖ Transport Hubs
- ❖ Retail & Office Premises

## How much will these services cost?

We understand that there cannot be a 'one size fits all' solution. The needs and budget of a small, privately owned operation will differ from the needs and budget of a large chain. As such, we offer a free, no obligation, initial meeting with clients to discuss their needs and requirements. Based on that initial meeting we will provide a proposed schedule of work, including costs. There is no 'hard sell' – we pride ourselves on delivering a high quality product, designed to meet all the needs of our clients. All of our work is totally confidential. Our staff have extensive experience of working in positions of great sensitivity and details of clients will never be shared without the express approval of the client.
